Equipment Location: Same as above

Dear Mr. White:

The District is proposing a significant revision to the Major Facility Review permit for your facility.

The purpose of the permit revision is to incorporate permit condition changes resulting from the addition of black start capability to the facility's natural gas fired combustion turbines. The black start project was reviewed and approved under District New Source Review application #29348. This permit revision also includes application #29709 which is an administrative amendment to change the facility's responsible official for Title V. Only the changes to the Title V permit resulting from the significant revision are subject to public comment.

The District has made a preliminary decision to issue the revised Major Facility Review permit, but the final decision on the permit issuance will consider any public and/or EPA comments on the proposed permit. The notice inviting written public comment will be published in the East Bay Times (Hayward Daily Review). The final date to submit comments is June 18, 2019.

The proposed permit and statement of basis can be viewed on the BAAQMD website at: <http://www.baaqmd.gov/permits/major-facility-review-title-v/title-v-permits>. If you have any questions regarding this project, please contact Xuna Cai, Senior Air Quality Engineer, at (415) 749-4788 or [xcai@baaqmd.gov](mailto:xcai@baaqmd.gov).

Sincerely,

Signed by Damian Breen for Jack P. Broadbent  
Jack P. Broadbent  
Executive Officer/Air Pollution Control Officer
